体验花园位于克拉科夫市东部波兰飞行员公园的绿植区内。6hm²的景观设计是基于现有道路和树木的布局设计的。该项目的设计概念将开放式公共公园的娱乐性与教育性相结合。在道路边设置了叶状的平台，用于展示和体验物理学原理。每个平台饰以不同的自然材料（如石材、砂砾、沙子、木材），以及不同的物理装置。还有两栋1层的建筑及大型露台，作为会议、办公和咖啡。

Garden of Experience is situated within large greenery area of Park of Polish Aviators in eastern Krakow. 6hm² large landscape design is based on existing paths and trees layout. The project's idea is to combine specific values of open-public park with recreational and educational qualities. Alongside the paths there are located leaf-shaped platforms for exhibiting and experiencing physics rules. Each platform is finished with different natural material (e.g. stone, gravel, sand, wood) and has different physics installation. There are also 2 one storey buildings with meeting rooms, offices and cafes, and large terraces. □
